PROFESSIONAL SUMMARY

Full-Stack Developer with experience in React, Next.js, TypeScript, Python, and SQL, working on real-world projects involving automation, ETL, REST APIs, and web systems. Strong background in front-end and back-end integration, data manipulation, RPA, and building solutions for enterprise environments.

PROFESSIONAL EXPERIENCE

IT Analyst — **Brk Agro** August 2026 – Present

- Information technology infrastructure management
- Software systems analysis
- Full-stack software development
- Robotic Process Automation (RPA)

Full-Stack Developer — **FGF Contabilidade** May 2025 – August 2026

- Development of REST APIs in Python for internal system integrations
- Creation of modern web interfaces using React and Next.js
- Implementation of ETL routines utilizing Pentaho and SQL
- Manipulation and analysis of accounting data for key metrics and performance indicator generation
- Participation in deployments and end-to-end front-end/back-end integration

Jr. Front-End Developer — **Flow Lab Tech** August 2024 – December 2024

- Development of web applications using React, Next.js, and TypeScript
- API integration and front-end architectural organization

Support & Network Analyst — **Compucenter / FlyLink** 2023 – 2024

- Technical support and maintenance of SQL databases
- Development of internal applications and RESTful APIs
- Network infrastructure management and monitoring

TECHNICAL SKILLS

Front-End: React, Next.js, TypeScript, JavaScript, Tailwind CSS
Back-End: Python, Node.js, REST APIs
Data: SQL, PostgreSQL, MySQL, ETL (Pentaho)
Automation: RPA (Robotic Process Automation)
Tools: Git, GitHub, Postman, DBeaver

EDUCATION

Associate Degree in Systems Analysis and Development — Faculdade Pitágoras
Postgraduate Degree in Full-Stack Development — Faculdade Descomplica (in progress)
